Estate and Bank Stock.  
Twenty-five years experience.  
Orders left at THE BOURBON NEWS  
office will receive prompt attention.

**A Good Roads Bill.**

Twenty-five bills were introduced in the Kentucky Senate Tuesday. Among the most important of these is the Wyatt-Bosworth good roads bill. It was offered in accordance with the amendment. It renovates the entire road law and provides for a State Roads Department, with a competent engineer at the head. The bill also provides for county engineers to be elected by the Fiscal Court. The engineer at the head of the State Roads Department is to receive a salary of \$2,400 a year, provided the bill as at present framed is enacted, and county engineers are to receive not less than \$300 nor more than \$1,800 a year.

The bill provides for special elections in each county to determine whether a special tax shall be levied in that county for good roads. Fifty taxpayers of a county may petition the County Court to call an election on the good roads proposition.

The bill provides State aid to the extent of five cents on every \$100 of taxable property in the State, this aid to be given each county in proportion to the amount raised in that county for good roads.

Senator Wyatt, one of the framers of the bill, when asked why it made provision for State aid said: "In my opinion and that of Mr. Bosworth, it would be unfair for the State to allow the county to create an indebtedness to build roads, which indebtedness would increase taxable valuations in that county. Inasmuch as the State would be the beneficiary to the extent of 50 cents on every increase of \$100 in valuation, it seems to us that the State should at least assist counties building roads to the extent of five cents on every \$100 to be given in proportion to the amount raised by the particular county."

**Wednesday's Aeronautic Record.**

Glenn H. Curtiss, in a Curtiss biplane, established a world's record for speed with passenger—fifty five miles an hour.

Glenn H. Curtiss, in a Curtiss machine, broke the world's record for time consumed in getting into the air—6.25 seconds.

Glenn H. Curtiss in a Curtiss machine broke the world's record for short distance covered in "run before leaving ground"—98 feet.

Louis Paulhan, in a Bleriot monoplane, failed in an attempt at the world's height record, making but 400 feet.

Louis Paulhan, in a Bleriot monoplane, carried a passenger twice around the field, a distance of three and a quarter miles.

Edgar S. Smith, aviator, was struck on the head by the propeller of his Langley machine and seriously injured.

**Cantrill Talks to Attorney General.**

Representative J. C. Cantrill, of the Seventh Kentucky District, president of the Society of Equity, held a conference with the Attorney General Tuesday concerning the investigation of the society now being made by the Department of Justice, having in view a prosecution under the Sherman anti-trust act.

Mr. Cantrill informed the Attorney General that the society was acting under the best legal advice obtainable in Kentucky.

"We are law abiding citizens," he said to the Government's chief legal authority, "and we are law observing citizens. If we are breaking the law in any way we would like for our attorneys to be put right."

The Attorney General said that he was inclined to believe that under the Supreme Court's opinions in the Sherman anti-trust cases, the society was not acting entirely within the law. He added, however, that he expected a report on the subject within a week or ten days. Until that was received he could give no definite opinion as to what course the Department of Justice would pursue.

The Attorney General will communicate with Mr. Cantrill after he has gone over the case.

Mr. Cantrill left Washington Wednesday for Kentucky to reside over the Equity convention.

**TO AILING WOMEN.**

A Little Sound Advice Will Help  
Many a Sufferer in Paris.

No woman can be healthy and well if the kidneys are sick. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are sick. Kidneys and bladder become inflamed and swollen and worse troubles quickly follow. This is often the true cause of bearing down pains, lameness, backache, sideache, etc. Uric poisoning also causes headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well. Let a Paris woman tell you about Doan's Kidney Pills.

Mrs. J. W. Hoffman, 115 N. Main street, Paris, Ky., says: "I gladly corroborate the statement I gave in 1905 in which said that had used Doan's Kidney Pills, procured at Willson's drug store, and had received satisfactory results. I suffered from piercing pains across my back and through my kidneys and at times I was so miserable that I was unable to attend to my work. Headaches and dizzy spells also added to my discomfort. Doan's Kidney Pills removed all these troubles and I have never had a return attack."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

**Hard Times for the Birds.**

(From Courier-Journal)

Our feathered friends, the birds, are having a hard time of it during the protracted severe weather. The ground is covered with snow and ice and it is slim picking for these energetic little denizens of the field and forest. Even the trees, bushes and shrubs are surrounded or partly enveloped in wintry coats of mail that are impenetrable to the hungry attacks of most varieties of birds. The prospect is a shade better for the sparrows and other birds which dwell in the cities, but even they are not likely to fare other than meagrely until the snow and ice are abated.

Dwellers in the country and town alike should pity the condition of the birds at such seasons. Grain, bread crumbs are other small articles of food scattered in accessible places will furnish acceptable rations for the chirping army and will fortify it for the battle against the cold. Unless there is relief of this kind their ranks will be decimated by freezing and starvation, and farmers and gardeners will be short of assistance next spring in their warfare on insect pests.

It has been noted and remarked upon by hunters who shot quail at different periods during the hunting season lately closed that the quail lagged in the closing days of the season were showing the effects of the severe weather. The birds are lacking in plumpness and were by no means comparable with those found in the opening days of the season and up to the time that the cold weather began.

Kentucky is behind some of her neighboring States in legislation for the protection of wild birds. A good many Kentuckians, it is lamentable to say, look upon all sorts of birds as more ornamental than useful. Many persons do not now that a single bird in a single day destroys hundreds of insect eggs and worms, or that a single tree sparrow will eat a quarter of an ounce of weed seed for his daily provender. These are facts which have been demonstrated by scientific investigation. They illustrate the enormous value of the birds to the farmer, the gardener and the fruit grower.

If bird life did no more than to add to the beauty of the world it would be well worth preserving, and there would be no justification of wanton slaughter. But the songsters of wood and field do not spend all of their time in singing—their songs are merely incidental to the every day, utilitarian service they are performing for mankind. The service calls for some reciprocity. The birds are helping man every day of their lives, and man should help them in their times of need.
